Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-9 and 12, drawn to a first fuel cell system/method, classified in class 429, subclass 13.
 - II. Claims 10-11, drawn to a second fuel cell system/method, classified in class 429, subclass 34.
2. The inventions are distinct, each from the other because of the following reasons: Group I includes non-porous water permeable membranes (having a pore size not greater than or equal to 10 nanometers in size) in the humidifier while Group II does not include such non-porous water permeable membranes in the humidifier.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their different classification and recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
